WHO WE ARE:

- **CLWIZARD LLC** is a technology company specialized in developing customized solutions for water infiltration in concrete. We use a high precision injection method with self-developed equipment and accessories to permanently solve any specific concrete leak case.
- We offer a 5-year warranty, ensuring that the concrete leaking issue will be permanently fixed, and the client will not have further costs. This approach provides complete accountability, promoting trust and confidence in our service.
- Our concrete leaking repair is both cost-efficient and permanent, leading to a 40% cost-benefit and deep satisfaction of our clients.
- We are available to fix your concrete leak issues according to your schedule, anytime of day or night. This commitment enables us to solve your problem 5 times faster than average.
- Our proprietary technology allows us to provide detailed investigation and high precision report for any type of concrete leak issue, solving them permanently.
- Our team of concrete leak experts operate the repairs without demolition, producing less dust and less noise. Hence, our services do not disturb the routine of the working place.
